

DIGITAL BUILDS THE FINEST PERSONAL COMPUTERS YOU CAN BUY.

And after you buy them, nobody does more to make sure you'll be satisfied.

That's because Digital is the only major computer company that supports its promise of quality and commitment to customer satisfaction with a comprehensive investment protection plan.

This plan will minimize your risk. Relieve your concerns about owning a personal computer. And it's included when you purchase any one of Digital's Personal Computers, including the Rainbow™ and the new Rainbow 100+, from a participating dealer, distributor, or Digital Business Center.

Digital's Rainbow now lets you run the widest range of popular business software—including Lotus™ 1-2-3,™ dBase II,™ TK!Solver,™ and Multiplan.™

With Digital's Rainbow, you can choose from hundreds of different software programs because only

Digital's Rainbow can run these five operating systems: MS™ -DOS, CP/M®-86/80, Concurrent CP M,* and p-System.** That means you'll have access to the broadest array of solutions for your business, today and tomorrow.

The new Rainbow 100+. More storage and more main memory.

The Rainbow 100 is perfect for most businesses. But if you need more power, Digital introduces the Rainbow 100+. It lets you store the equivalent of 5,000 typewritten pages on a built-in 10 Mbyte hard disk. You'll also run the most advanced business programs faster and easier—thanks to 128 Kbytes of main memory, expandable to 896 Kbytes.

A wider choice of options and accessories, too.

With either Rainbow, you get a choice of monitors: white, green, amber, or high-resolution, full-color display. A choice of high-quality printers. A graphics

option that lets you create bar charts, pie charts, and line graphs. And more.

Including personal computer accessories and furniture custom designed by Digital to help you get the most out of your computer.
